Attachments: 14 059 Flint Hills Request for Hearing Decision April 4 2014.pdf

Hi Marcia

Here is a copy of the DEC Commissioner's decision concerning Flint Hills' request for an adjudicatory hearing regarding the 14 ug/L sulfolane cleanup number.

In summary he decided to remand the decision to DEC's Contaminated Sites Program Division Director and instructed them to develop a record of decision for why the cleanup number should be 14 ug/L.

DEC indicated they would likely be requesting additional assistance from EPA in developing their record of decision because the cleanup level is based off the PPRTV. The level of support is unknown at this time, but they will contact us once they have a path forward in place.
